The following is an examiner's statement of reasons for allowance:

The prior art of record, either alone or in combination, fails to anticipate or render obvious the instantly claimed invention. The applicant's comments regarding the amount of sodium bentonite in the Alexander disclosure are not completely convincing on their own because, although the disclosure would indicate 80-99.9% by weight, the examples themselves would appear to contain considerably less than this amount. However, the examiner concurs with the arguments that the skilled artisan armed with Alexander would not have the requisite motivation to select the specifically claimed components in the specifically claimed amounts from the broad disclosure of effective components as set forth in the reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth D. Wood whose telephone number is 571-272-1377. The examiner can normally be reached on M-F, 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
